This minimum service charge is applicable to every family we serve and includes transferring the deceased from the place of death (or Coroner's Office, hospital, airport, etc.) to our holding room, where the deceased will be placed in a casket* of your choosing and securely held until the necessary documentation is completed for burial or cremation as applicable. Once the required documentation is ready (i.e. death has been registered and if applicable, the coroner's certificate for cremation / out of province has been obtained), the deceased is transported in a service vehicle to the cemetery or crematorium at the earliest practicable opportunity or at a scheduled time, as applicable.

Additional Service Options

We offer the following additional services, which are optional:

Additional body preparation services

It is our policy that human remains be identified whenever possible. The identification may be made by anyone who knew the deceased, including a relative, friend, neighbour, co-worker, or clergy person. While identification of a body is possible with the minimum required preparation, you may wish to consider opting for “basic preparation of remains” or embalming, as it might afford a more peaceful final viewing experience. Embalming is not legally required but may be recommended to preserve the body between the time of death and final disposition. One of our funeral directors will be able to guide you on preparation options and make recommendations based on the condition of the body and the expected service needs.

Visitation

These are informal gathering periods that allow family and friends to come and pay their respects and offer comfort to a grieving family.

Funeral services

This includes services, rites, and ceremonies with the body present in a casket. A funeral service can be religious or non-denominational and can be held in various places, including in our chapel, at a place of worship, a venue such as a club or hall, or at the graveside. Streaming of a service or gathering is available for an additional fee when available.

Memorial services or Celebrations of life

This is a service to commemorate the deceased, which takes place after the body has been cremated. The cremated remains may or may not be present, as preferred by you; a framed portrait and personal mementos might also serve as a focal point during the memorial service. Streaming of a service or gathering is available for an additional fee when available.

Graveside / Cemetery Interment Service

This is a service to commemorate the deceased at a cemetery or graveside for a period of up to 30 minutes. Streaming of a service is available for an additional fee when available.

Nonetheless, we are pleased to offer the following selection of products in a range of prices and materials to suit your preferences. If the urn is to be placed in a columbarium niche at a cemetery, you must make sure the urn you select will fit. We are not responsible should the urn selected not hold all the cremated remains. Bringing in your own Urn

You may provide a suitable vessel to hold the cremated remains of the recipient, however, this container must be large enough to contain human cremated remains and be easily sealed. We are not responsible for any damage or defect the exists or can take place when placing the cremated remains within. Caskets

The following caskets listed may be available and are distributed by Ericault. Please see funeral home for in stock inventory. Additional options may be available upon request. Transportation fees may be incurred for custom orders. Unless otherwise noted, all caskets listed are standard adult size.

Minimum requirements for a casket:

For burial: The least expensive wood casket is suitable and is required by most cemeteries' by-laws for interment, in the interest of the health and safety of the workers involved in the interment process. A metal casket may also be used for burial. A growing number of cemeteries in Ontario offer "green" burials, which may consist of interment of a body without a casket. Since there is no legal definition for a "green" burial, it varies from one cemetery to another. For more information, please speak with one of our funeral directors, or visit www.greenburialcanada.ca

For cremation: A body must be presented to the crematorium in a rigid, leak-proof casket that is made of a combustible material, such as wood or cardboard. Caskets containing non-flammable, hazardous material or chlorinated or fibre-reinforced plastic, other than incidental metal, cannot be used for cremation. We offer a selection of inexpensive caskets below that are suitable for cremation.

Approvals and Delivery Times

Prior to going to print, all stationery products require an approval from the purchaser. It is the obligation of the purchaser to ensure all information is correct prior to approval. Reprints are charged at the standard pricing above. Orders for stationery products must be placed with enough time to allow for delivery, typically this is a four to five day window, however, the funeral director will discuss your needs and provide you more accurate timeline information.

The funeral home is not liable for errors or reprints after approval has been given. No alterations can be made after approval has been given.

Vault and Grave Liners

Outer burial containers listed below are for standard adult size caskets. Oversize vaults are available to accommodate plus-size caskets. Price includes delivery within 75km. A grave set up and lowering device may be required depending on the cemetery (fee not included).

You do not have to purchase a vault unless the Medical Officer of Health has made the use of vaults and grave liners mandatory in the entire cemetery. A cemetery operator may designate a specific area in the cemetery where vaults or grave liners are required; however, the operator must have another area where vaults or grave liners are not required, so that consumers have a choice. A vault or grave liner may be recommended when there are environmental conditions such as poor drainage, or for practical or aesthetic reasons.

Payments, Financing and Funding

For services at time of death:

Payment is due within 30 days of signing the contract, beyond which interest will be charged at a rate of 2.5%, which is equivalent to 34.49% per annum (APR). Payment may be made by cash, cheque, debit, and most major credit cards.

Financial assistance for funeral, burial and cremation services may be available through various governmental agencies, to those who qualify.

Pre-payment in advance of need:

For services that are being arranged pre-need, we offer two funding options when prepaying services or supplies:

Trust: You pay for the services and supplies at today's price and we will place your money in a trust account, where it will accrue interest until the prepaid contract is fulfilled (when the services and supplies are delivered). Pre-payment can be made by cash, cheque or credit. Funds are held in the purchaser's name.

Insurance: You may purchase an insurance or annuity policy through us, where the proceeds of the insurance / annuity policy will be used to pay for the services or supplies at the time they are delivered. Payment may be made by credit card or cheque for single payments. Time payment plans may be made by credit card or pre-authorized chequing. The policy is held in your name and assigned to the funeral home. Terms and conditions and cancellation policies are set by the Insurance Company.

Guarantee: When paid in full in accordance with the payment terms set out in the prepaid contract, the prepaid contract is guaranteed. The total payment(s) made plus interest / growth earned will be applied to the future price of the services and supplies. If the total payment(s) plus interest / growth earned are insufficient to cover the total future price of the prepaid services and supplies, we will absorb the difference as a loss. Any funds more than the total future price of the prepaid services and supplies will be returned or applied toward additional services, supplies and disbursements purchased at the time of need, as applicable. Conditions apply. Any changes to the prepaid contract may result in the prepaid contract being null and void and a new contract being executed with current pricing at the time changes are made.

Additional information about payment, financing and funding options is available upon request.
